

FEMA'S HAZARD MITIGATION OPPORTUNITIES

Crosswalk of FEMA's Mitigation Grant Programs

	PA MITIGATION	HMGP	BRIC	FMA
What	Reduce or eliminate damages to public facilities by funding hazard mitigation during the rebuilding phase. After a disaster Public Assistance (PA) Mitigation creates more resilient communities by protecting facilities and providing continuity of critical public services.	Used to implement hazard mitigation projects and hazard mitigation planning after a disaster to achieve state priorities for reducing risk to lives and property from natural hazards.	Pre-disaster mitigation grant to fund innovative and creative mitigation projects; expand capability and capacity; encourage partnerships, mitigation planning and nature-based solutions.	Pre-disaster grant funding to reduce or eliminate flood risk on repetitive flood risk structures insured under the National Flood Insurance Program. Can also fund community-wide mitigation and planning projects to reduce flood risk.
Who	Public facilities and eligible private non-profits.	Individuals, businesses, private non-profits, communities, and state agencies.	Individuals, businesses, private non-profits, communities, and state agencies.	NFIP insured properties and NFIP participating communities.
When	Post presidentially declared disaster ~6 months after impact	Post presidentially declared disaster ~ 2 years after impact	Annual. Notice of funding opportunity typically late summer.	Annual. Notice of funding opportunity typically late summer.
Where	Any public facility damaged by a declared disaster event.	Anywhere in a state that has HMGP dollars allocated for a disaster.	All states, territories, and tribes which have a declared disaster in the past seven years.	Any community or property participating in the NFIP.
How	Questions regarding PA Mitigation should be directed to the State Public Assistance Officer or the FEMA Program Delivery Manager (PDMG) for existing FEMA PA Applicants.	Communities can contact their state Emergency Management Agency which coordinates HMGP funding with FEMA after a disaster.	Communities can contact their State Hazard Mitigation Officer (SHMO) for more details on the state specific timeline for applications to be complied for the national competition.	Communities can contact their SHMO for more details on the state specific timeline for applications to be complied for the national competition.
Contact	For more information on PA Mitigation.	For more information on HMGP.	For more information on BRIC.	For more information on FMA.
Examples	Underground power lines, elevate equipment, construct flood walls, install shut-off valves, install hurricane straps on roofs.	Property acquisitions, elevations, mitigation retrofit, flood-proofing generators, hazard mitigation planning.	Mitigation projects, capability and capacity building, hazard mitigation planning, non-financial technical assistance.	Acquisitions, elevations, infrastructure protection, wetland and aquifer restoration/creation, floodplain and stream restoration, planning.
